

Picture Day Tips for a Great Experience

We're so excited to capture your child's smile on Picture Day! Here are a few simple tips to help the day go smoothly and make sure your little one is picture-perfect:

1. Choose Comfortable, Camera-Friendly Clothes

- Solid colors and simple patterns photograph best.
- Avoid large logos, characters, or graphics that may distract from your child's face.
- Layers or textures (like a cardigan or ruffles) add depth without being overwhelming.

2. Keep Hair Simple

- A quick brush in the morning goes a long way!
- Try to avoid large hair accessories unless they're a key part of your child's look—less is more when it comes to bows and headbands.

3. Let Them Shine

- Talk positively about picture day so they're excited (not nervous).
- Remind them to listen to the photographer and have fun! Natural smiles are the best kind.

4. Trust the Process

- Our goal is to capture each child as they are—sweet, silly, shy, or bold.
- We work patiently with each little one to make the experience relaxed and enjoyable.

If you have any special requests (such as wearing a jacket or removing a necklace, including a sibling pose, etc.) please make sure to communicate that to your child's teacher on the morning of picture day!

We're honored to create these lasting memories. If you have any questions, feel free to reach out!
